DPS-4877 ✓
Copy 6 of 6

13 October 1958

MEMORANDUM FOR: Procurement Development Officer, DPS/DCI
THROUGH : Director of D&P, DPS/DCI
SUBJECT : Field Trip of Dr. R. Scott and
 to Detachments
REFERENCE : DPS-4135, 11 September 1958

I had occasion recently to review the referenced document. I should say that both on initial reading and review I found it a most informative and useful report. I would appreciate it if you would let me know at your convenience the status of action on your recommendations and those in Dr. Scott's field trip report. I am especially anxious to know whether there are any unresolved questions requiring decision by Project Headquarters. As an example, I refer to your discussion in paragraph 3.F.5.a. (page 6) of the need for increased quantities of spares in the FAKs and your comment in paragraph 3.G.3. (page 7) on extra pay for the 70 millimeter processing men. I am in full agreement with the general conclusion stated in your final paragraph that we should take a greater interest in the photo sections and should do everything in our power to supplement the less than completely satisfactory backing they are receiving from Hycon. In this connection, I believe we should give serious consideration, if and when we turn to a different contractor, to facilitating the transfer of these personnel to the new company.

(sgd) Richard M. Bissell, Jr.

RICHARD M. BISSELL, JR.
Special Assistant to the Director
for Planning and Development
